## Seniors drown their stress at the water slides

**Katrina Romanowsky**

News Editor

"Splish Splash."

On Tuesday, May 22, three busloads of seniors left Cabrillo High School at approximately 9 a.m. to head for a day of fun at the Lake Lopez Mustang Water Slides.

Although the day started out overcast and a little cold, the sky had cleared by the time the buses arrived at Lake Lopez.

"It was really relaxing and I'm thankful it wasn't as hot as people thought it was going to be," said senior Carrie Holding.

The students alternated between the two large water slides, the pool, the hot tubs, and sunbathing.

"At least now my legs don't look like the underbelly of a dead fish," said senior Ashly Raiti.

The activities of the day included a men's bikini contest, a hula hoop contest, and a contest to see who could sit in a trash can filled with ice water for the longest period of time.

According to many of the seniors

present, Enrichment Day could not have come at a better time.

Sandwiched between the Senior Project Open House and the Senior Project Presentations, the day away from school allowed students to have a much-needed break from their normally stressful schedules.

"It was a wonderful escape from the pressures of senior year," said senior Christina McIntosh.

All of the seniors attending the fun-filled day at the water slides seemed to have an enjoyable time.

"It was a blast!" exclaimed senior class president Christina Hain.

"It was quite nice," agreed senior Kevin Brooks. "I had a lot of fun; I'm glad I came."

Even the teacher chaperones appeared to have an agreeable time at this year's Senior Enrichment Day.

"It was like almost all Ditch Days, really fun to relax with all you guys, because you're all so cool," said English teacher and senior class advisor Roderick Schmidt.
